William J. Coughlin of Somerville, Mass., says: "In the fall of 1876 I was taken with a violent bleeding of the lungs, followed by a severe cough. I was so weak at one time that I could not leave my bed. In the sammer of 1877 I was admitted to the city hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the Lungs. I got a bottle, when, to my surprise and gratification, I commenced to feel better, and to-day I feel in better spirits than I have in the past three years.
